FOUND DEAD ON FLOOR OF ROOM

Dobbin House Scene of Sudden Death of Miss Matilda Wolford To-Day.

WAS DEAD MANY HOURS

Had Agreed only the Day before not to Lock her Door for Fear Something Might Happen.

The dead body of Miss Matilda Wolford was found lying on the floor of her room in the old Dobbin House on Steinwehr avenue by Miss Ada Keckler about eleven o'clock this morning. Death had evidently taken place many hours before.

Miss Wolford, who was about 68 years of age, retired at the usual time last night and other residents in the house heard her moving about shortly after midnight. It is presumed that she was stricken at that time and fell to the floor where death soon followed, if it did not actually occur immediately.

About eight o'clock this morning Miss Keckler went to the door and called her but, receiving no answer, believed that Miss Wolford was asleep. When she did not come downstairs before eleven o'clock Miss Keckler became alarmed and again went up. This time she entered the room and found Miss Wolford dead. A peculiar part of the occurrence is that only yesterday morning Miss Keckler had cautioned the other woman about locking her door at night "for fear something might happen". To this Miss Wolford replied, "All right. To-night I'll let it open."

Miss Wolford leaves two brothers, Eli Wolford, of near Hanover; and Ephraim Wolford, of near York; and a sister-in-law, Mrs. Jacob Wolford, of near Bonneauville.

Miss Wolford intended to move next Tuesday to near Bonneauville in order to be with relatives.

She was a member of St. Luke's church.

Coroner Woerner was notified of the circumstances attending the death and decided that no inquest was necessary.

The funeral arrangements have not yet been made.

MRS. DANIEL ARNSBERGER

Mrs. Eliza Arnsberger, 82 years old, died at her home, in Dillsburg, Wednesday morning about 5 o'clock, after a sickness of nearly six months.

She was the widow of Daniel Arnsberger, a veteran of the Civil War.

She leaves five sons and three daughters: James, of Dillsburg; Charles, of Carlisle; William, of York; John, of Sykesville, Md.; Henry, of York Springs, R. D.; Clara, at home; Mrs. Moorehead, of Gardner, and Mrs. John Darr, of Dillsburg, R. D.; also two sisters, Mrs. Kate Spangler and Mrs. Mary Speck, of Dillsburg.

Funeral services will be held at 2 o'clock Friday afternoon at the residence of Mrs. Mary Speck.

Interment will be in the cemetery at Dillsburg.

GETTYSBURG MEN ACTIVE GUARDS

One of them Stopped Railway Official and had to be Convinced.

Gettysburg men who took up the task of guarding Western Maryland property at Hagerstown are having a big time of it.

On Monday C. H. Wilson took sixteen recruits for the service over to the Maryland city and they immediately went to work. That same night one of them spied what he thought was an intruder and gave a prompt order to stop. "I'm one of the officials", was the reply but this failed to satisfy.

"I don't care who you say you are", came from the Gettysburgian, "I've got to be shown and if you don't stop I'll know the reason why".

A stout club in the guard's hand emphasized the weight of his remarks and the official retreated until he found C. H. Wilson who went along back and identified him as one having a perfect right on the premises. The guard was commended for his faithful performance of duty.

A number of those who went over on Monday came back Tuesday, but six others from here took their places. Others went to-day and the town is well represented. There has been practically no disorder whatever on the part of the strikers.

BUPP-KITZMILLER

Will be at Home in Gettysburg after April Fifteenth.

Charles Franklin Bupp, of Gettysburg, and Miss Mabel Margaret Kitzmiller, of Philadelphia, were married in Philadelphia Wednesday. They will be at home here after April 15th at 140 York street. The bride is a daughter of the late Mr. and Mrs. Jacob Kitzmiller, of Gettysburg. Mr. Bupp is a son of Mr. and Mrs. Matthias Bupp, of Gettysburg, and is associated with his brother, Walter Bupp, in the carriage and automobile painting business.

FIRST MOTOR CAR SHOW IS OPENED

Gettysburg Has Excellent Display of Large Line of Popular Cars.

MANY DEALERS PRESENT

Musical Program to Feature the Evenings. Cars Attractively Arranged in New Garage.

With a total of thirty five cars, representing a dozen or more different makes, Gettysburg's first automobile show opened this afternoon in the new Eberhart Garage. It is really an Adams County exhibit rather than a Gettysburg affair for dealers from a number of towns are represented.

Every type of car for which the local dealers are agents appears in the show. There are runabouts, touring cars, sedans, and roadsters, all brand new, and resplendent in their highly polished bodies. From the cheap cars up to the high priced machines the display is all highly interesting to the motor owner or prospective purchaser and the large new garage is well adapted to show them off to good advantage.

The dealers are on hand, too, at their various assigned spaces to point out the merits of the individual cars, and the callers at the show are assured of every attention during their stay.

Motorcycles also appear, and an exhibit of oils is an added feature. Several other exhibitors showing automobile accessories have asked for space and will be granted it if this can be done without crowding things.

The cars are ranged along the eastern and western sides of the main building and the center is kept open as an aisle for all visitors. At the southern end of the building the college musical organizations will provide programs on all three evenings of the show. Complete electrical lighting, which insures just as much illumination by night as in the daytime, makes the garage specially well adapted for the evening events and the attendance will likely be large, the show having been well advertised and special efforts made to arouse interest throughout the county.

The following are included among the exhibitors: E. H. Trostle, Bigler, Oakland and Kline; Harry Warren, Arendtsville, Chevrolet; Mr. Roubush, York Springs, Ford; Littlestown Garage company, Paige; Samuel E. Trimmer, Dodge; Gilbert and Company, New Oxford, Overland; Crescent Auto Company, Gettysburg, Overland; Centre Square Garage, Gettysburg, Oldsmobile, Maxwell, Hupmobile and White trucks; D. J. Forney, Gettysburg, Ford, Buick, and Reo; Central Auto Company, Pullman; S. G. Bigham, Bigler, Hudson; and Harley-Davidson motorcycles, Joe Codori.

Admission is free.

Hours of the show: 2 to 6 p.m.

AMERICANS TO RETURN

Would Have them Leave Germany before Next Monday.

(By Cable)

Rome, Mar. 29.—Germany has been asked to send all Americans home according to news here to-day. The request is said to have been sent from Washington through Ambassador Page who communicated it to the Spanish ambassador for transmission to the government at Berlin.

London, Mar. 29.—According to Spanish newspapers all Americans have been warned to leave Germany before April 2.

Washington, Mar. 29.—American relief workers in Belgium will be detained for two weeks in some German town of their own selection, before being allowed to return home. This is in conformity with an agreement made some time ago so that the Americans might not be in position to give any fresh news concerning any German military moves.

WILL ORGANIZE ENTIRE STATE

Governor Brumbaugh will Name Eighty Four Sub-Committees for Work.

(By Telegraph)

Harrisburg, March 29.—Governor Brumbaugh to-day formally placed at the disposal of the United States the resources of Pennsylvania when he telegraphed to President Wilson the result of yesterday's public safety meeting.

He stated that the omissions of former Governors Stuart and Tener from the committee had been "through inadvertence". Ex-Governor Stone cannot serve because he is the Supreme Court prothonotary.

Governor Brumbaugh, in a letter to Chairman Pepper, suggested the starting of some initial fund to carry out the plans of the commission. He also urged that the commission take up the question of agricultural and food supply and geological resources at once. The Governor is anxious to enlist the support of the State Grange, labor organizations, and other bodies.

He plans the appointment of eighty four sub-committees which will cover every foot of territory in the Commonwealth and will include every man, woman, and child under its influence.

ELLIOTT SISTERS HOME FROM CUBA

Have Rough Trip from Island but Land Safe in New York City.

RELATIVES ARE RELIEVED

Worried when they were Forced to Leave Plantation on Account of Roving Revolutionists.

Mrs. C. L. Criswell, of York Springs, has received a letter announcing the safe arrival in New York of her sisters, Misses Leila and Bessie Elliott, who had been spending the winter in Cuba.

The Elliott sisters were former residents of York Springs and their friends in the county were much concerned some time ago when the revolution broke out in Cuba, where they had gone last fall to visit a sister, Mrs. Edward Franquist.

It was a novel and exciting life on the Franquist coffee plantation which lies about ten miles east of Baracoa, a seaport town. The big snakes would come up to the house and were so friendly that they would enter without an invitation and upon taking their departure to the nearby jungles would carry along a pig or chicken nicely stowed inside. They don't look under the beds at night for burglars in Cuba but occasionally find a twelve foot anaconda taking a nap there after probably having previously dined on one of the ranch owner's beasts or fowls.

The insect family is very numerous and very willing to extend a cordial invitation to the northern visitor. There is nothing snobbish about Cuban insects whether they fly or crawl and in a couple of hours are on most friendly and intimate terms.

Down there on the coffee plantation during the rainy season it rains in torrents but the young ladies rather enjoyed their visit until the outbreak of the revolution. Then reports came of roving bands of lawless characters committing all sorts of crimes and Mr. Franquist decided to take his wife and sisters to Baracoa. There are no roads, only trails, and at times the brush in the jungles was almost impossible and the entire party would be compelled to dismount from their horses and walk for some distance. After several hours walking and riding the Elliott party arrived at Baracoa. There is no American consul at that place and they took refuge with the Norwegian consul until they could secure passage on a fruit steamer to New York where they arrived on Saturday. They report a stormy and dangerous passage.

The Misses Elliott will resume their former positions as nurses in the Hahnemann Hall Sanitarium at Atlantic City and later expect to come to York Springs when they will personally relate some of their experiences in Cuba.

GET \$35,000

Heavy Payment Made by State Workmen's Insurance Fund.

(By Telegraph)

Harrisburg, Mar. 28.—Ten widows and twenty children will receive \$35,000 compensation from the State Workmen's Insurance Fund as a result of the Henderson Coal Company's mine explosion, near Canonsburg, March 13, when fourteen men were killed.

This is the heaviest payment yet drawn from the state fund as the result of a single accident, but it is no wise embarrassment it, according to officials.

FARMER'S HEAVY LOSS

Thieves Make Big Haul at Farm Near New Oxford.

While Mr. and Mrs. Joseph Gebhart, near New Oxford, were spending the evening with Joseph Glass, a neighbor, thieves visited the Gebhart smokehouse and removed the meat of five hogs and half a beef. Two sons were at home but they did not hear the thieves operate. The meat was taken between the hours of eight and ten by some one evidently aware of the parents' absence.

WOULD HARM FAIR

York Society among those which Oppose Child Restriction.

Since the introduction of a bill before the state house of representatives, which, if passed, would prohibit children under the age of sixteen from attending any exhibition open to the public unless accompanied by an adult, the members of the Pennsylvania Association of State and County Fairs, together with the state organization of motion picture theatre proprietors, are up in arms and have organized to fight the measure. That a bill of this kind, if passed, would be instrumental in causing a large falling-off in the attendance at the annual York county fair, is the opinion of H. C. Heckert, secretary. Secretary Heckert bases his theory on the fact that last year, when the infantile paralysis quarantine kept children away from the fair, the attendance was way below that of previous years.

CHAMBERSBURG TO ENLARGE HOSPITAL

Look over Other Institutions in this Section so as to be Prepared.

Recent inspections made of the hospitals at Hagerstown, Carlisle, and Chambersburg, as a preparedness measure, brought out some interesting features. One reason for the inspection was to find out how well the institutions would be able to care for many cases in the event of an emergency and it is said that plans will soon be drawn, as a result of this visit, for the enlargement of the Chambersburg hospital.

From what was seen it is apparent that the institution is too small and should be enlarged in order to provide for all the classes of patients it should care for. Hagerstown has now a capacity of 56 beds and with a third story unoccupied can provide for 24 more. Carlisle has a capacity of almost 100. Chambersburg at the present time, can accommodate about 30. In the event of an epidemic of some sort requiring hospital attention, or in case of a serious accident, or war, their hospital would prove inadequate.

While nothing definite has been decided by the board of directors, an expert architect will be brought there within the next few days to go over the situation and make a report of the Board. It is the purpose to have the plans drawn upon a comprehensive scale so that the hospital building can be enlarged as necessity demands.

The architect to be engaged will likely be Mr. Evans, of Philadelphia, who recent furnished the plans for the remodeling of Wilson College.

WHEAT HITS TWO DOLLAR FIGURE

Local Warehouses Pay Highest Price in Recollection of Many Residents.

MUCH STILL HELD HERE

Five or Six Thousand Bushels in Barns of Farmers who Believed that Record would be Reached.

Wheat not only reached the two dollar mark at Gettysburg warehouses to-day, for the first time in many years, but it slipped by with one cent margin and \$2.01 was offered for all the wheat that could be brought in. Farmers who have persistently held on in spite of the fluctuations are happy, and point with pride to the good judgment which prompted them to stick it out in face of the predictions of failure made by their neighbors.

It is said by those who should know that there are between 5000 and 6000 bushels of wheat held in the immediate vicinity of Gettysburg to-day. Some of the farmers held first for \$1.50 and let it go at that. Others held on for \$1.75 and then sold, while others set the two dollar mark as their goal.

Time after time it approached the much coveted figure. Finally when it started to drop back a week or ten days ago several became frightened and sold but the others were more determined and refused to give up. Now that the grain has crawled by two and three cent steps to the almost unheard of figure they are happy ones while the others look on regretfully.

The oldest resident has difficulty remembering when to-day's figure was reached in the years gone by and it has been a long time since Adams County farmers had a chance to get such returns.

A number of the residents of the townships immediately surrounding Gettysburg have large quantities of wheat which they have held. Several are known to have between 400 and 500 bushels each. Some of them sold portions of their crop and then set by other parts to hold on for the top price. Yesterday one of these men telephoned to a local warehouse, "Can you give me \$2 to-day?"

"No," was the reply, "the best we can do is \$1.98".

"Well, let me know when you are paying two dollars".

Early this morning the same warehouseman called up the same farmer and said

"Bring in your wheat. I'll pay you not only two dollars but \$2.01". And then the answer

"I think I'll hold on a little longer". So it goes.

DRIVING A WEDGE

French Advance Further Endangers Germans.

VIOLENT ARTILLERY DUEL

Capture Important Positions in Encircling Movement Northeast of Soissons—The British Also Gain.

Paris, March 28.—"French troops captured important positions in the region of Leully and Neuville and made further progress north of the Ailette," declared the official statement.

Leully and Neuville Sous Margival both lie south of the forest of St. Gobain. Progress reported here indicates possibly another French encircling movement. Heretofore the fighting has been reported from the north of the forest.

The official report indicates unusual activity further east. The artillery of both the French and the Germans kept up a violent fire and during the night on the front between Butte de Mesnil and Maisons de Champagne. Heavy artillery fighting is in progress in the region east of the lower forest of Coucy.

The official statement says: "Between the Somme and the Oise and south of the Oise there were no important events during the night. The artillery firing was rather heavy in the region east of the lower forest of Coucy. North of the Ailette we made further progress and also in the sector east of the line Leully-Neuville-Margival, where we captured several important points of support."

"In the region of Rheims we made a surprise attack east of Neuville, taking prisoners. In the Champagne the artillery fighting became violent, especially in the region of Butte de Mesnil and Maisons de Champagne."

The French made a substantial advance south of the Somme, moving forward in places as far as three miles from their positions Monday, with the result that the big bulge in the line formed by the Lower Coucy forest has disappeared, and the front runs continuously from the Somme to the Aisne.

Coucy-le-Chateau, which is perched on a height, could not be attacked from the front, and the French, following Napoleon's maxim of going around an obstacle that cannot be surmounted, cleared the Germans out of the lower forest. The operation was carried out with skill and despatch, and Coucy, turned on the right, fell into their hands like ripe fruit.

The Germans naturally did not place their main position on the automatically flanked Coucy plateau, and it evidently lies farther in the rear.

Meanwhile the British, advancing toward Cambrai from the southwest, have taken Equancourt, Liermont and Longuevesne, thirteen, fourteen and seventeen miles, respectively, from their goal at the most distant of them eight miles from Peronne, from which they pressed forward a few days ago.

The Germans admit the loss also of Rolles, six miles directly east of Peronne. The French gains to the south between the Oise and Coucy-le-Chateau are explained by Berlin in the statement that the German troops "gave way to avoid being outflanked."

ITALY EXPECTS BIG DRIVE

Credit Hindenburg With Plan to Reach France Across That Country.

Rome, March 28.—The predicted great offensive against Italy by the central powers continues to be the chief topic of discussion in military and political circles.

Field Marshal von Hindenburg is credited with aiming at an invasion of France across a prostrate Italy.

In this connection General Droschi, commander of the Montenegrin troops serving with the Italian army, writes: "A terrible and desperate attack is in preparation against our lines. Every one foresees it and even the enemy announces it in order to intimidate us by threatening Italy with the fate of Rumania and Serbia."

Losses \$40,000 in Jewels.

Los Angeles, Cal., March 28.—William Wrigley, Jr., millionaire manufacturer, notified the police that his Pasadena home has been robbed during the night of \$40,000 in jewels and \$250 in cash. Wrigley and his wife were asleep on the sleeping porch and the robbers entered through a window and stole the jewels, which were in a bag in Mrs. Wrigley's room.

Slaves Willing to Fight for U. S. Sharon, Pa., March 28.—More than eighty Slaves employed in the steel mills have been drilling for two months, and have volunteered for naval service, according to N. Nalle, sergeant at the naval recruiting station. Forty-five Rumanians also have formed a company, and will offer their services in event of war.

Appam Restored to Owners.

PAVE WAY FOR BILLS

Appropriation Measures to be Rushed in the House.

Washington, March 28.—House leaders, Democrats and Republicans, began conferences to pave the way for quick action on appropriation bills and legislation bearing on the international crisis, regardless of which party organizes the house when the extra session begins on Monday next.

Speaker Clark, Democratic Leader Kitchen, Republican Leader Mann and Representative Fitzgerald agreed tentatively that the big appropriation bills which failed at the last session of congress should be reintroduced in the form which they originally passed the house, be acted upon without delay, under a suspension of the rules, and sent to the senate. Also they agreed that should either party organize the house the minority representation on all committees should be raised several members.

Democratic members of the ways and means committee of the last congress who will serve in the incoming congress conferred on committee assignments for their party, confident that, as heretofore, their caucus will name them to make the selections. The meeting was executive, but it was understood an agreement was reached to reassign all committee chairmen of the last congress who will serve in the coming congress, and advance most of the Democratic ranking members to chairmanships.

BRITAIN SEIZES DUTCH SHIPS

Grain Vessels Confiscated After Refusal to Carry Supplies to England.

Washington, March 28.—Dutch steamships in British ports are reported to have been confiscated by the British government.

The information comes from a grain house which sold the Dutch government grain on many of the vessels. It could not be confirmed at The Netherlands legation.

Forty Dutch ships are in ports belonging to Great Britain, and fifteen grain-carrying vessels are reported to be coming from Holland to the United States. Many Dutch ships have been detained in British ports for six or eight weeks.

Britain for some time has been insisting that a certain percentage of Dutch merchant tonnage carry cargoes to British destinations, and the Dutch government has refused.

RUSSIAN GOVERNOR SLAIN

General Kurapatkin and Commander of Sebastopol Garrison Arrested.

Berlin, March 28.—The governor general of the Russian government of Tver has been assassinated.

News of his death was received by the Overseas News agency. The agency despatch continues:

"On orders from the Russian provisional government, the governor of Archangel, General Kurapatkin, and the commander of the Sebastopol garrison, have been arrested. The latter members of the Russian upper chamber—the reichsrats—have been forced to resign."

Transport is Torpedoed.

London, March 28.—The British transport Tyndareus was torpedoed February 9, says an official statement. A battalion of the Middlesex regiment was on board, and says the statement, "upheld army tradition." The ship was saved.

FORCED INTO WAR

Mr. Wilson Plans to Tell Congress.

TO MEET NATIONAL CRISIS

U. S. Must Use Every Means at Its Command to Crush German Military Autocracy, Said to be President's View.

Washington, March 28.—President Wilson and his cabinet are firm in their belief congress should declare that a state of war exists between the United States and Germany, caused by the acts of the latter country.

The paramount features of the two-hour discussion of the nation's prospective war plans by the cabinet was the unanimous decision of the president and his advisers that the United States should make use of every means at its command to crush the military autocracy of Germany.

The details of the war program which the government will put into operation as soon as congress has provided it with authority to act will be held in reserve, pending the discussion of it in the senate and house.

The main concern of the government now is to convince congress that no alternative is possible other than a declaration that Germany has forced the United States into proclaiming a state of war.

It is the unanimous opinion of the president's advisers that the democratic governments of France and Russia should be helped in every way possible. This government is believed to have firsthand information that more soldiers are not needed by either and that if any expeditionary force is sent from this country it shall be for sentimental rather than practical reasons.

It is recognized that both France and Russia need money and supplies. The necessities of Russia in the direction are particularly acute.

Of the plans tentatively discussed the most popular appears to be to loan France and Russia a substantial sum of money, probably \$500,000,000 each, upon bonds bearing an infinitesimal rate of interest that can be refunded.

The project to make a gift of \$1,000,000,000 to France has many supporters in executive circles, and is certain to receive the consideration of congress.

A statement calculated to remove from the public mind any suggestion that he was undecided as to the course the nation should pursue against Germany was authorized by the president after Senator Hitchcock, Democrat, Nebraska, after a conference with the president, had said he believed the president still had an "open mind." Senator Hitchcock also suggested that the president was considering one of three courses—to continue the present state of armed neutrality, to sanction a declaration by congress that a state of war exists or to favor a flat war declaration.

"The president invited suggestions from Senator Hitchcock, but made no comment as to his course of action." This was the authorized statement which Joseph P. Tumulty, the president's secretary, made after the president had been informed of the construction placed on the Hitchcock statement.

MORE MILITIA CALLED

All Partly Demobilized Regiments Included in Order.

Washington, March 28.—Orders were issued by the war department calling all national guard units which have partially demobilized back into the federal service.

The order applies also to troops demobilized during the last few days, which the department understood still were in the federal service when previous orders were issued. Six regiments in this class will be mobilized again.

Four additional regiments of the national guard also were called into federal service by the war department. They are the First West Virginia, Seventy-fourth New York, Second Connecticut and Second New Jersey infantry regiments. The Second New Jersey has headquarters in Trenton, and is commanded by Colonel Clarence M. Reading.

Altogether more than 50,000 guardsmen have been called out to do police duty at industrial plants.

May Lend U. S. Officers.

Paris, March 28.—If the United States declares war on Germany, France will at once place at the disposal of the government a body of seasoned officers to train recruits for active service. That this action is to be taken was learned from an authentic source. Already some officers have been selected. It is said. These are from the infantry, cavalry and artillery.

Britain to Curtail Motoring.

London, March 28.—Lord Hilton announced in the house of lords that the supply of petrol was so short that on the expiration of the current licenses in April, none would be available for private motor cars.

Bay Rome, Ga., Gets Armor Plant. Rome, Ga., March 28.—The government's \$11,000,000 armor plate plant will be located at Rome, according to advices from Washington.

Economy.

Unquestionably, honesty is the best policy, but a lot of folks think they can get along with something less expensive.—Richmond Times-Dispatch.

Two American engineers who have just arrived in Switzerland from Vienna say Ambassador Penfield, his staff and many American families have packed their belongings and are ready to leave the Austrian capital at any moment. The travelers say Austrians generally believe that war with America is inevitable.

ACCEPTS LINCOLN STATUE

Paris Council Accepts America's Gift to France.

Paris, March 28.—The statue of Lincoln, which America is giving France will be erected in Paris, the city council having accepted the offer made by Premier Ribot.

Adrien Mithouard, president of the council, in his letter to the premier on the subject says:

"The city of Paris is happy to be honored with such an offer, in which we see a new and precious pledge of traditional friendship, and I beg you to transmit to the organizing committee our acceptance and our cordial thanks."

"As to where the statue will be put, it will be decided when we receive it, but our American friends may be sure we shall give to the statue of President Lincoln a location worthy of it."

CZAR SEKS LIBERTY

Made Dash for Freedom Through Sweden, Berlin Hears.

Berlin, March 28.—It is reported from various sources that the czar escaped from the Tsarskoe Selo palace the German press bureau announced in a statement of March 24.

According to the Copenhagen Polliken all railroad trains in Finland were searched by soldiers because it was supposed the czar tried to reach Sweden.

The Stockholm Tidningen confirms this report and states that the frontier is closely guarded. The police in Uleaborg were informed late during the night the czar had fled by automobile and tried to cross the frontier. The governor of Uleaborg received an order to arrest the czar.

FOREIGNS EGG ROLLING

Ancient Custom at White House is Abandoned Owing to Crisis.

Washington, March 28.—Egg rolling within the White House grounds on Easter Monday—a custom almost as old as the White House itself—will be abandoned this year because of the international situation, and the grounds around the Washington monument will be used.

Under the present rule policemen keep all unauthorized persons at a distance from the White House.

Falls Dead of Fright.

Wilkes-Barre, Pa., March 28.—When fire started in a building adjoining her home, Mrs. Joseph Majles, aged forty-nine, dropped dead from fright. As fire engines approached, she stepped to the front door of her home. Soon as she saw the flames leaping about the roof of the building she fell and was dead before relatives could offer any assistance.

Kaiser Has Diabetes.

Berne, Switzerland, March 28.—Kaiser Wilhelm is suffering from a mild form of diabetes and is undergoing treatment at Homburg, according to wireless despatches received here. His physicians are said to have given assurances that with a careful regimen of treatment they can effect a cure, but worry is said to be retarding the emperor's recovery.

Japan Recognizes Russia.

Tokio, March 28.—Japan has decided to recognize the new Russian government.

BEAT AMERICAN SISTERS

Englishwomen Smoke at Work in Offices Since War Began.

London, March 15.—(By mail)—Women in England who smoke outnumber their American sisters possessed of the same weakness. One sees in the restaurants as many who smoke as who do not. It remained for the War to remove the next to last restriction. They are now smoking while at work in at least one London office. The last restriction will go when they are seen smoking in the streets.

Male army clerks always have been permitted to smoke while at work. Falling heir to many of the clerks' jobs, the women have fallen heir to the habit also. The only regulation prescribed is that they must not smoke before 11 o'clock or after 3 p. m.

FARM NEWS NOTES OVER THE STATE

Short Paragraphs of Happenings in Different Sections of Commonwealth.

It is reported that the frost penetrated the ground to an unusual depth during the winter, as much as five and six feet in some places.

The scarcity of female household help has decreased the number employed on the farms of the State during the past year almost two thousand.

There has been a decided stimulus to sheep breeding and over four hundred pure bred rams have increased the flocks during the year. Secretary of Agriculture Patton's advice to raise sheep has been taken seriously by many farmers and for the first time in many years an increase instead of a decrease in the number was noted.

Approximately fifty per cent of the farmers in Pennsylvania are using lime for agricultural purposes. Reports indicate that farmers generally are pleased with the results obtained from the increased use of lime and the tendency seems to be to use still more.

It is estimated that Pennsylvania farmers held on March 1, a total of 16,965,900 bushels of corn, almost five million bushels less than during the past two years at that time.

It is estimated that seven per cent more of the 1916 wheat crop was shipped out of the counties where it was grown than in 1915. This represents almost two million bushels.

Statistics show that about \$4,000,000 worth of firewood is used annually on the farms of the State, but Pennsylvania ranks as one of the small consumers in the total of \$225,426,000 worth of firewood used on the farms of the United States.

Wants Peace Without Victory—Supports Carranza Embargo Plan.

Buenos Aires, March 5—(By Mail)—Gen. Carranza's proposal that the neutral countries cut off supplies from the belligerent nations unless the latter make peace terms has many supporters in official circles here.

The officials who favor the Mexican first chief's plan say they do not believe it was dictated to him by the Germans. Even so, however, they declare they want to see peace restored and do not particularly care whether this is accomplished by pro-German, by pro-ally or by entirely neutral influence.

A large South American element objects to an out-and-out victory by either of the European groups. The view is that South America will suffer if either side should gain a complete monopoly of South American trade.

The suggestion that the United States would furnish competition in either case is held to be a distant prospect or the ground that it will take the United States some time to build up an adequate mercantile marine, if she ever does.

ARGENTINA APPROVES

College Women Plan Nation-Wide Better Films Campaign.

Long Beach, Calif., March 29—Believing that the motion picture is the greatest factor in the education of the masses, the National Federation of College Women to-day decided upon "Better Films" as its chief work for the ensuing year. A vigorous campaign in behalf of better films is planned, and the plans also include formation of a bulletin service to advise women's clubs throughout the nation regarding the various films as they are released.

Mrs. Myra Miller, president of the Federation, named Mrs. Harriet Barry, of Monrovia, California, as national chairman of the "Better Films" department. Her plans for the project will be one of the important features presented at the Biennial National session of the Federation in Portland, Oregon, July 10-13 inclusive.

CUBAN REBELS STEAL CATTLE

Cet Lion, Elephant and Caesar and Cleopatra's Cattle—Leave Paddock New York, March 29—Cuban revolutionists stole an entire menagerie circus except the tents and the sawdust, according to Edward and Lottie McGinley, members of the show, who arrived from Cuba.

The rebels, ordered by their chief to commandeer the circus horses and food supplies, made off with the elephants and Caesar and Cleopatra after drawing lots for distribution of them and captured also a twenty-three-year-old lion and Hattie, the elephant. The circus was playing at the time at a town about twenty miles from Havana.

CARLISLE HAS BIG BOOM

Challenging the co-operative and progressive spirit of large municipalities, Carlisle in the last two months has organized a Chamber of Commerce of 265 members, elected a permanent secretary and put movements in operation which foretell cumulative results for the whole community.

Some things actually done are: observance of pay-up week, uniform advertising agreed upon, agreement and indorsement of charity distribution, control of the itinerant vendor, establishment of a credit-rating bureau, affiliated with the national chamber, received funds for inducing industries to go there, working with the State Employment Bureau, obtained option on 100 houses for prospective renters, obtained a Farm Bureau agent, started a survey of Wagner's Gap road, opening up trade channels to \$100,000 yearly, held noonday luncheons addressed by national experts, entertained the returning experts, insurance re-rating applied for, plans for a community house started, initiated the movement for county preparedness and has had representatives from forty firms there investigating factory sites because of the publicity.

TWO ARRESTS MADE

Important arrests were made in Carlisle Tuesday by Detective Bentley which are expected to stop thefts of brass and other metal, later sold for junk. Other arrests in the same case are in prospect.

Charged by George A. Plough, superintendent of the Cumberland Railway line, with having been concerned in the theft of brush holders, lubricators, brass pipe and other articles, Dora Kuhn, of Mount Holly Springs, was arrested Tuesday and placed in jail. The articles have been recovered.

Bernard Epstein, a Carlisle junk dealer, has also been arrested, it being alleged that he purchased the metal knowing it to be stolen. The value was \$65. This case is along the lines of the warning issued some time ago by District Attorney Lloyd that dealers should only buy articles after an investigation.

500 TO JOIN

There is a big night ahead for Carlisle Independent Americans. On May 25, there will be initiated into the mysteries of the order a class of about 500 candidates at Harrisburg, the exercises to take place in Chestnut Street hall. The famous Carlisle degree team will do the work which is a high compliment to the Carlisle team. A committee of fourteen is working up the great event and representing the Carlisle Council is Marvin L. Braught, a Past Councilor. The valley town lodges will turn out en masse and it is expected several hundred will go from Carlisle, Mechanicsburg lodge has already hired a band for their trip. All or most of the State Council officers are expected to be in attendance.

YORK COUNTY

FLAG DEMONSTRATION

A proclamation calling upon citizens, of Hanover, generally to participate in the flag demonstration and parade to be held Saturday, in York, was issued by Mayor E. S. Hugentugler. It urges the people to make the occasion one worthy of a historic city where the bodies of two signers of the Declaration of Independence, James Smith, of Pennsylvania, and Philip Livingston, of New York, are buried. Many patriotic organizations have already signified their intention to participate in the parade, the time for which has been definitely fixed at 4 o'clock Saturday afternoon, the original intention of holding it Sunday having been abandoned.

WINS BIG SUIT

The York Manufacturing company won an important legal contest in the United States District court. The company was sued some time ago by the City Ice and Coal company, of that city, for breach of contract. The amount of damages claimed by the Alabama company was \$30,000. It was charged by this company that the York concern failed to install an ice machine which one of its agents had

agreed to install. The York company's defense was that it was beyond the scope of authority of the agent to agree to erect the ice machine. General Manager Thomas E. Shipley and Sales Manager A. B. Strickler, of the York Manufacturing company, were the only witnesses for the York company, which was represented by Henry C. Niles, Esq., of York. The verdict in favor of the York company was rendered Wednesday afternoon.

NEARLY 13,000 SIGNERS

With some of the blanks still uncollected, the total of loyalty pledges, counted at York was 12,907, of which 9,129 were names of men and 3,778 were names of women. It is known that quite a number of sheets are out.

The action of York council No. 1530, Knights of Columbus, last Sunday, as evidenced by a pledge sheet among those received Wednesday, has augmented the list 170 names. The communication, signed by E. H. Shuman, grand knight, and John L. Elkesman, recording secretary, has this to say:

"At the regular meeting of the council on March 25, last, it was unanimously voted that the council as a body of men comprising 170, earnestly declare their loyal and full support to stand back of the government of the United States in this great hour of trial and impending crisis, and do as a body agree in full expression with the above declaration of loyalty."

FRANKLIN COUNTY

MILITARY TRAINING MEETING

The Chambersburg committee of the Military Training Camp Association will hold a meeting on the fifth floor of the Trust Building, Friday, March 30 at 8 p. m. for the purpose of giving further information to those interested in the Plattsburg and Plum Island camps. The dates of camps for 1917 have been officially announced and the department is endeavoring to determine as early as possible the number of men who wish to enroll for these camps.

HELP PURCHASE FLAG

Superintendent J. H. Reber, of the public schools, of Waynesboro, has turned over to the Woman's Relief Corps the money collected on penny day in the schools to go towards the purchase of a flag to be placed in the county court house in Chambersburg. In all \$9.65 was secured for the corps. The women wish to express their sincere thanks and appreciation to all the children who gave a contribution. In the money turned over there were a number of dimes and nickels and one quarter. The greater amount of the contribution was made up of pennies.

PROVIDED WELL FOR WIFE

The last will and testament of the late Daniel Webster Hess, Waynesboro, was probated in the office of the register and recorder at Chambersburg late Tuesday evening. Letters testamentary were issued to Albert T. and S. Edwin Hess, sons of testator, named the executors in the will. Mr. Hess made his will March 12, 1909. The witnesses were J. B. Long and H. J. Bare.

By the terms of the will Mr. Hess' widow receives the residence, at corner of North Grant and King streets, and \$15,000 in cash absolutely. The residue of the estate is to be converted into cash and divided equally among his surviving children.

The estate is estimated to be worth in the neighborhood of \$200,000. Much of it is represented by mortgages and corporate stocks. The realty holdings are also quite extensive, the residence being one of the finest home in Waynesboro.

THROWN FROM BUGGY

Horse Takes Fright and Vehicle is Upset. Has Deep Gash.

As the result of being thrown from his buggy, George Hale, of Abbotstown, received a deep gash in his head, and sustained bruises about the body. Mr. Hale was driving a young horse in a buggy on the Lincoln Highway, when the horse became frightened at a passing wagon, and became unmanageable. In the efforts to stop the runaway colt the bit of the bridle broke, and he was unable to control the horse. The horse made a dash homeward, upsetting the buggy, and throwing Mr. Hale to the ground. The buggy was badly broken, but the horse was unhurt.

NO LOCATION TO HANG MURDERER

REFUSE FEDERAL HOUSE

Odd Condition Results in State of Washington and Life Term will Evidently Be Imposed.

(By Telegraph) Spokane, Wash., March 29—Because there is no place in which to hang him, Edward Mayberry, half breed Indian, probably will escape the death sentence imposed for the murder of Alice Vivian on the Colville reservation last August.

President Wilson granted Mayberry a 30 day respite so his lawyers could appeal from the sentence, on the ground that it could not be legally carried out in the state of Washington, where capital punishment is barred. This respite will expire a week from Sunday.

The woman killed by Mayberry was alleged to be his wife. He said the shooting was accidental. As it occurred on federal government property, United States Judge Rudkin went ahead and condemned Mayberry to death, in spite of Washington's law against executions. The original hanging date was January 19.

Mayberry obtained a postponement until March. Then it was necessary to find a place inside the state boundaries and yet not under state jurisdiction where a gallows could be legally erected. The federal building was deemed United States territory and plans were made to hang Mayberry on the roof. His lawyers objected and demanded a ruling by the treasury department. Mayberry remained calm and carpenters began measuring off a place to build the scaffold.

The treasury department ruled that the plan was illegal. President Wilson granted Mayberry a reprieve to April 10, at which time he will be imprisoned for life, likely.

KILLING RED MAN

Tuberculosis Fast Thinning Ranks of American Indians.

Washington, March 29—The fast thinning ranks of the Indian are seriously threatened with the scourge of tuberculosis, according to the Office of Indian Affairs—official guardian for more than 200,000 members of the red race to-day.

Prevention of the spread of this dread disease, which is more prevalent among the Indians than any other race, is occupying most of the office's time. Trachoma, an eye disease, is the next most serious affliction among Indians. Uncleanliness and alcohol are blamed. A campaign of education to curb the two evils has been started.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

(Medical Advertising) YOU HAVE CATARRH!

What Are You Doing To Stop It?

If your nose is clogged with air passage swollen and inflamed or if crusts are constantly forming in it, if you suffer from droppings in the throat and are blowing, hawking, spitting all the time you have catarrh.

You may have had catarrh for years—and can go on having it for years to come if you refuse to act. But if you really wish to end it quickly and feel 100 per cent better in every way go to Peoples Drug Store or any live local druggist and say, "I want a large package of Hyomei with inhaler."

No stomach dosing, greasy ointments, sprays or gargles. You breathe Hyomei and as you inhale its pure, wholesome air its healing tonic balsams quickly reach all the sore, inflamed membranes of the nose and throat and the catarrhal germs are destroyed. Clears out the head and throat like magic, opens up the nose, makes breathing easy and gives complete relief from every catarrhal symptom. It has done this for years for thousands of people. Your money back if it cannot do it for you.

Gettysburg People Should Act in Time.

If you suffer from backache, if you have headaches, dizziness, if the kidney secretions are irregular.

Don't delay—likely your kidneys are sick.

Gettysburg people recommend Doan's Kidney Pills.

Here's a Gettysburg woman's experience:

Mrs. Charles Jacobs, 236 S. Washington St., Gettysburg, says: "I had an intense, aching backache and my kidneys were weak. Doan's Kidney Pills, procured at the People's Drug Store, gave me relief at once. Since then, it hasn't been necessary for me to use such a medicine and I believe that they have given me permanent benefit."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Jacobs had. Foster-Milburn Co., props., Buffalo, N. Y.

BRITISH AGENT SUICIDE

Shoots Himself in Office Building of Bethlehem Steel Company.

Allentown, Pa., March 29.—William J. Morris, commissioner for the British government in the United States and Canada, committed suicide in the office building of the Bethlehem Steel company, by shooting himself through the heart.

Morris arrived in South Bethlehem on Tuesday after visiting the munitions plants in Canada. He was in his office the greater part of the night. Telephone operators for the company heard a shot, and investigators found the commissioner in his chair. He was forty-five years old, and leaves a widow in England.

Scarlet Fever Closes Schools.

Sunbury, Pa., March 29.—Four Sunbury public schools closed because of an outbreak of scarlet fever. Prompt efforts were taken to stamp out the disease. FOR UNIVERSAL TRAINING

New York Legislature Endorses War Resolution After Violent Debate.

Albany, N. Y., March 29.—After a stormy debate, during which personalities were freely exchanged and the patriotism of Assemblyman Abraham J. Shipplough, a Socialist, was assailed, the assembly adopted a resolution to place the New York legislature on record as favoring the principle of universal military training and service as outlined in the Chamberlain bill, which was before the last session of congress.

Shipplough compared the Chamberlain bill to a conscription law and his position was attacked by other members.

During a turbulent half hour which followed, Assemblyman F. A. Wells, formerly an officer of the national guard, declared that Shipplough "had the yellow dog sort of patriotism" and at one point asked: "What's the matter with putting this fellow out?"

Quiet eventually was restored and the resolution was adopted with the only negative votes being cast by Shipplough and his party colleague, Joseph A. Whitcomb.

ATLANTIC MOTOR OILS

Keep Upkeep Down

THE motor-oil "problem" is no problem at all, once you get this simple, primary fact pasted squarely in your hat, to wit:

No matter what car you drive, or when, or where, or how, there is one of the Big Four that is exactly right for that car under certain conditions.

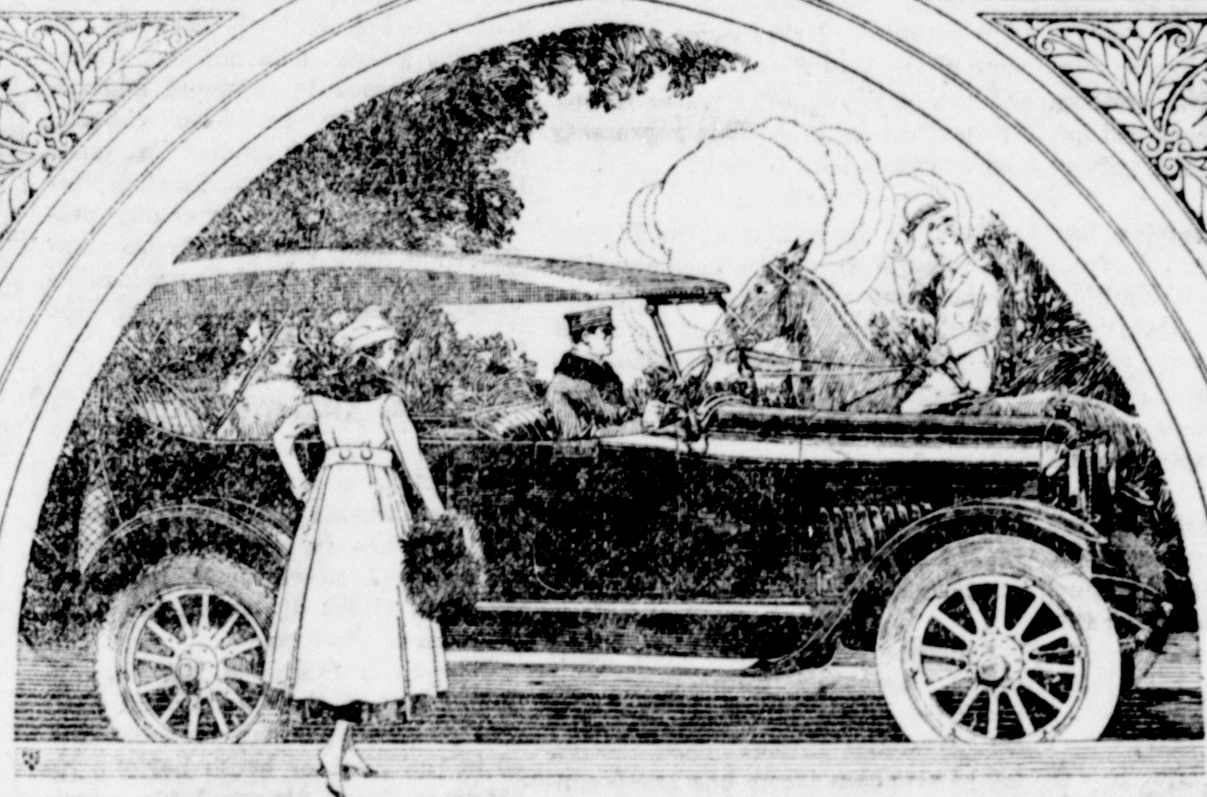

Here's a group of four motor oils, refined and recommended by the oldest and largest manufacturer of lubricating oils in the world. They have proved-up in years of actual road-use.

Under certain conditions, Atlantic Light may be the one oil you should use; under other circumstances, Atlantic Heavy; and so on. Atlantic Polarine is the famous year-round oil that flows freely at all temperatures.

Ask your garageman which Atlantic Motor Oil your car should get. He will put you straight on this lubrication-thing. Ask him for your free copy of the "Why" booklet, or write us.

PAIGE

The Most Beautiful Car in America

Paige cars are made in three sizes. There are two seven-passenger models which sell for \$1495 and \$1375. There is also a five-passenger, 39 horsepower model which sells for \$1175.

The seven-passenger models are, of course, considerably larger than the "Linwood." They are well worth the difference in price. But we want to point out at this time, that all three of these cars are Paiges—blood brothers of the same strain.

So far as a choice between them is concerned, it is simply a matter of your individual requirements. If you can advantageously use a large, sumptuous, seven-passenger automobile, by all means invest your money in a Paige "Stratford-51" or the Fairfield "Six-46."

On the other hand, if a five-passenger model is ample for your purposes, then, decide on the "Linwood-39."

You must approach the matter in the same way that you would choose between a one karat and a two karat diamond. All of these cars are clean cut, flawless gems. In their respective price fields, they represent the utmost that you can secure in automobile value.

We are putting the matter before you in this frank way, because we want to be genuinely helpful. We also want to emphasize—just as clearly as we possibly can—that Paige builds only good cars—quality cars.

But—above all—make it a point to see the Paige line before you buy any car. As a business man, you can't afford to overlook the three greatest dollar-for-dollar values in the entire automobile field. This is a broad, sweeping statement, but you can establish the facts to your entire satisfaction.

Will you make it a special point to see "The Most Beautiful Car in America"?

MAY GET VOTE

Lloyd George in Favor of Woman Suffrage.

SAYS FRANCHISE IS DESERVED

British Premier Declares It Would be Unfair Not to Give Sex Voice in Recasting the Industrial Follies.

London, March 29.—Premier Lloyd George made a declaration in the house of commons in favor of woman suffrage.

The premier said he welcomed the recommendation in favor of woman suffrage which was made in the program for electoral reform, moved by former Premier Asquith.

The other reform measures also were approved by the premier, who said that in the opinion of the government it would be a national waste if the results of the conference at which the reforms were outlined should be thrown away. He favored a generous extension of the electoral franchise by reducing to three months the period for qualifying for voting, and by assuming the qualification of every soldier and sailor.

The premier paid the warmest tribute to woman's work during the war, especially the devotion, courage and zeal of women munition makers. He said that when after the war the nation came to recast the whole industrial fabric, to give women no voice therein would be on outrage; it would be inequitable, unjust and ungrateful, and he believed that the country would not sanction such injustice for a moment.

He agreed to the desirability of avoiding all political controversies during the war.

Parliament to be elected after peace was declared, he said, would have to solve quickly the problems which would determine the course of things in Great Britain, and the empire for generations, and unless he was mistaken in the temper of the people, they did not intend to entrust this tremendous reconstruction to any party machine; they meant, he believed, to take it into their own hands. Therefore he declared that he was glad that men of all political faith had agreed upon a basis for an electorate, millions of whom made sacrifices for their country.

After intimating that the government was not prepared to adopt proportional representation, the premier concluded by expressing the hope that the house would show the same spirit not merely of conciliation, but of good sense, and carry through the recommendation substantially in the form in which they were made and without.

out the bitterness of a political controversy.

Several members of the house supported an amendment introduced by Arthur Clavelle Salter, Unionist, urging the avoidance of the question during the war, except in the shape of a temporary measure placing soldiers and sailors on the register, the ground being taken by Mr. Salter that any scheme of reform as suggested would discourage the allies, disconcert the fighting men and distract from the national efforts to win the war.

GREW AN INCH AN HOUR

Soldiers Massacre Recruit to Bring Him Up to the Standard.

Kansas City, March 29.—Carl R. Wheeler, who applied for enlistment with the Third Missouri Infantry, was found to be one inch short of the required height.

A half dozen guardsmen volunteered to bring Wheeler up to requirements, and after an hour's massaging and rolling the applicant was again brought before the examining physician. He was accepted.

Wheeler's stature was said to have been decreased as a result of carrying sacks of cement.

Few Germans Going to Mexico.

Washington, March 29.—Official reports from the southern department made public, say reports that many Germans have crossed into Mexico since diplomatic relations between the United States and Germany were broken off are without foundation. The records of the immigration authorities and of the army intelligence service along the border show that only three Germans have passed into Mexico since February 3 in the Brownsville district, and seventy-eight in the Laredo region, thirty-four of the latter returned to the United States.

CHARGES RUBBER PLOT

Four Men Arrested in New York for Alleged Conspiracy.

New York, March 28.—Four men were taken to police headquarters charged with conspiracy to ship rubber secretly to Germany.

In two trunks and a phonograph, seized on a steamship plying between New York and Norway, the police say they found sheets of rubber and many letters and memoranda written in German.

The trunks had secret compartments. Those arrested were Joseph Newman, exporter of this city; Oscar M. Newman, his brother; Hans R. Hansen, chief steward of the ship, and William Henn.

VILLA'S FORCES DEFEATED

Beaten in Fight With Carranzistas, Twenty Miles South of Chihuahua. Juarez, Mexico, March 29.—Villa's forces were defeated at Mapula, twenty miles south of Chihuahua City by Carranza troops in command of General Francisco Murguía, according to unofficial but reliable reports received from Chihuahua City. All reports of fighting within the city were denied. The defeat of the Villa troops was believed to have prevented Villa from carrying out his announced plan of attacking Chihuahua City. An unconfirmed report said that General Joaquín Amaro, with 4000 troops, had arrived at Chihuahua City from Tijuana to reinforce General Murguía.

(Medical Advertising)

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel
clean, sweet and fresh
and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
